Joe,

Attached are my comments on the RECON Work Plan dated December 2020.
Please review them and either you or RECON respond back to me on each comment.

Have you had a chance to review my previous comments which I forwarded to you on February 9.

Overall, RECON appears to be a well-qualified and experienced firm with good staffing.

However, they don't seem to have experience working where residents live within the Superfund Site. They only seem to understand OSHA, not NAAQS standards.

Thanks,
Jim Guinan
